- Managing transfer of data to State Pollution Control Board

Watch the demo at [EnvirotechLive.com](http://EnvirotechLive.com)

Envirotech Live website solution for real time data reporting is designed to help the industry minimize the infrastructure investment on Servers, Technology, Development and Technical Staff and is focused on implementing fully automated, low maintenance web solution in shortest time as per compliance requirement.

## Salient Features

- ✓ Get air quality data updated on website real-time
- ✓ Check data from anywhere in the world
- ✓ Basic analytics capability : trend analysis can be performed on data for holistic, comprehensive view.
- ✓ Full control to manage permissions and visible information
- ✓ Can integrate multiple stations across locations

**Multiple Data Views for Parameters**

\* 1 year warranty with on site maintenance

# Display Board Solution

Envirotech Live offers the latest technology display board that can be used for data and message display

## Benefits

- ✓ Fully automatic data upload
- ✓ Only instrument to display real time air quality data
- ✓ Clear visibility during day light and night

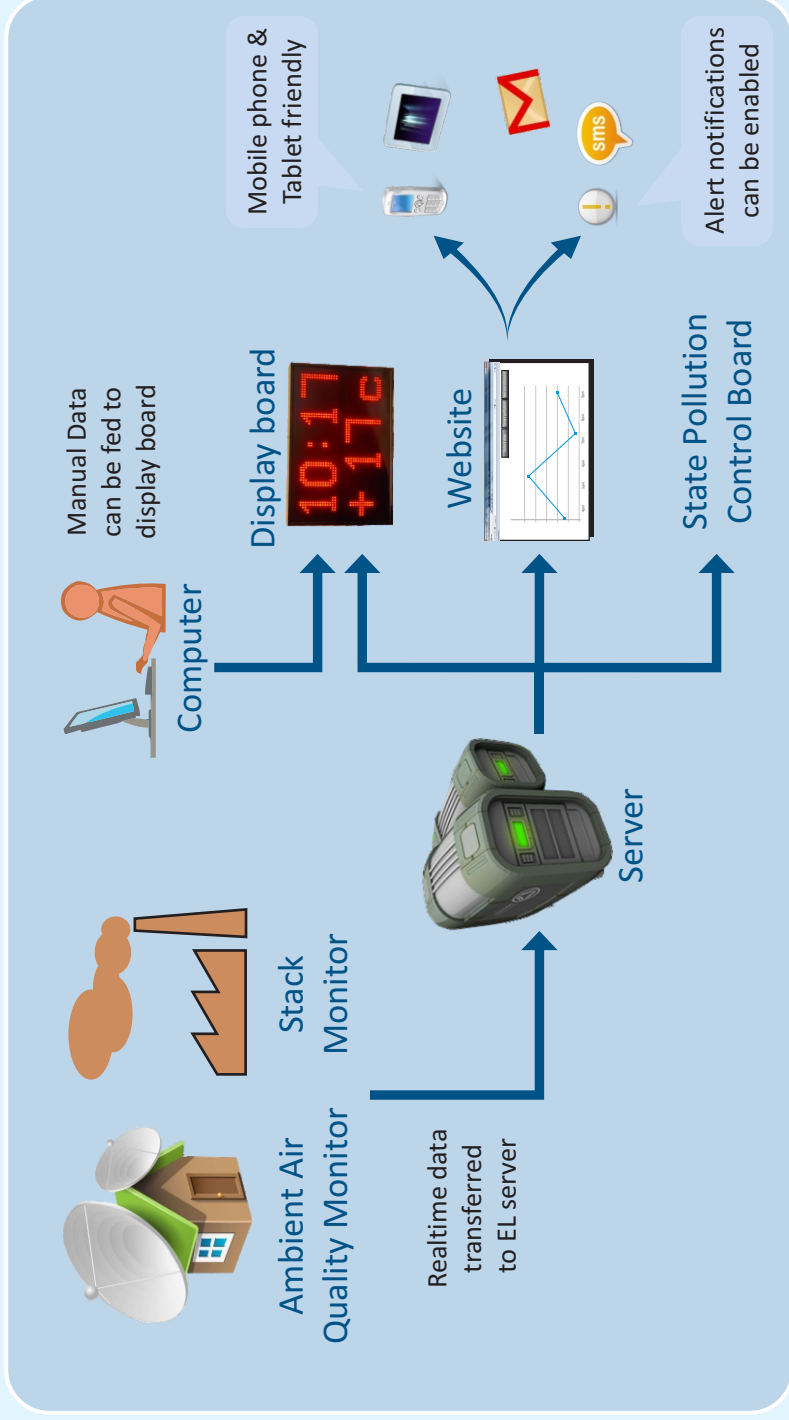

## Features

- Character size : Upto 110 cm
- Board size : 122 cm x 364 cm  
61 cm x 364 cm  
61 cm x 274 cm
- Display color : Red/Yellow
- Display mode :  
1 or 2 line scrolling  
1 or 2 line fixed display
- Message transfer : Through software compatible with window XP, 7
- Message upload options :  
Rs232 / GSM / GPRS / Ethernet
- Environment : Outdoor
- Operating temp. : 0-60 deg C
- Input power : 220 V, 50 Hz
- Language support : English

\* 1 year warranty with on site maintenance

# Architecture Overview

## Real Time Air Quality Data Reporting Solution

- Data will be stored on secure dedicated servers, with back up, no need to make infrastructure investments of servers and staff at your end.
- View live data of your instrument from anywhere on your website, through your computer or mobile.
- Generate high quality analytics on specific parameters for specific time period, save results as XLS and other format.
- Generate custom reports or notifications that can be sent on the mobile or email.
- Complete control on the data permissions and security.
- Tried and tested solution, already installed for multiple stations.
- Shortest turn around time for end to end implementation and commissioning of solution.
- Experienced team of experts, for real time remote support and at site.
